DETAILED ACTION

Response to Arguments

Applicant's arguments filed 25 October 2005 have been fully considered but they are not persuasive. As per claims 1 and 6, Applicant amended the claims to include the limitation "commercially available". However, such a limitation does not add patentable weight to the claim since what is "commercially available" is subject to the whims of the marketplace and different at any given time, and thus is not a concrete structural limitation.

As per claims 14 and 15, the Examiner maintains that it would have been obvious to alert the user if a fault occurs. Fault alerts are common in many applications and, contrary to Applicant's arguments, it would be generally useful for a user to know if there is something not working properly with the thermostat.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The newly added limitations to independent claims 1 and 6 render the claims indefinite for the reasons set forth in the response to arguments set forth above, namely that what is

Art Unit: 3744

“commercially available” is subject to the whims of the marketplace and different at any given time, and thus is not a concrete structural limitation.

Claims 2-5 and 7-20 are rejected since they each depend from claims 1 or 6.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Bhatnagar.

In view of the response to arguments set forth above, the rejections of these claims as set forth in the previous Office Action are carried forward and maintained.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.

Art Unit: 3744

2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 14 and 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bhatnagar.

In view of the response to arguments set forth above, the rejections of these claims as set forth in the previous Office Action are carried forward and maintained.

Allowable Subject Matter

Claims 8-13 and 16-20 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 3744

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
